

POTABLE WATER TANKS

WATER REGULATIONS ADVISORY SCHEME (WRAS) MATERIAL APPROVAL

All Ecosure Potable Water Tanks are manufactured using a polymer suitable for contact with wholesome water for domestic purposes, having met the requirements of BS 6920-1:2000 "suitability of non-metallic products for use in contact with water intended for human consumption with regard to their effect on the quality of water".

The polymers used to make the Ecosure range of Potable Water Tanks are:

- Icorene 1214 DW Black 9001
Approval number: 1202543
Approval holder: ICO UK Ltd
- Lupolen 4021 K RM
Approval number: 1008530
Approval holder: Basell Sales and Marketing Company B.V.
- Revolve N-748
Approval number: 1201523
Approval holder: Matrix Polymers Ltd

An entry is included in the Water Fitting Directory on-line under the section headed, "Materials which have passed full tests of effect on water quality". The Directory may be found at:
